Summary

Hey there! I'm Deepak , and I'm all about using my skills to make a difference in the world. As a Full Stack Developer, I love taking ideas and turning them into something real and awesome, using my mad skills in Python (Django) and MERN.

But I'm not just about coding and making things look pretty. I'm also super passionate about helping others. So if you're looking for a kick-ass Full Stack Developer who's also a total team player, hit me up!
